Stainless Steel Parts Included

(1) Electric Assist Brake Sensor Guard, DS	Part #702338
(1) Electric Assist Brake Sensor Guard, PS	Part #702339

INSTALLATION INSTRUCTIONS

1. Before you install your Electric Assist Brake Sensor Guard, see the diagram for all necessary parts. Start on the driver's side.
2. Remove the two factory bolts on the caliper bracket as shown on the diagram and reinstall the two factory bolts onto the two mount tab holes of the electric assist brake sensor guard then secure the two factory bolts back to the caliper bracket threaded holes.
3. Repeat the procedure for the passenger side.
