INSTALLATION *(For ease of installation it is suggested that the wheel be removed)*

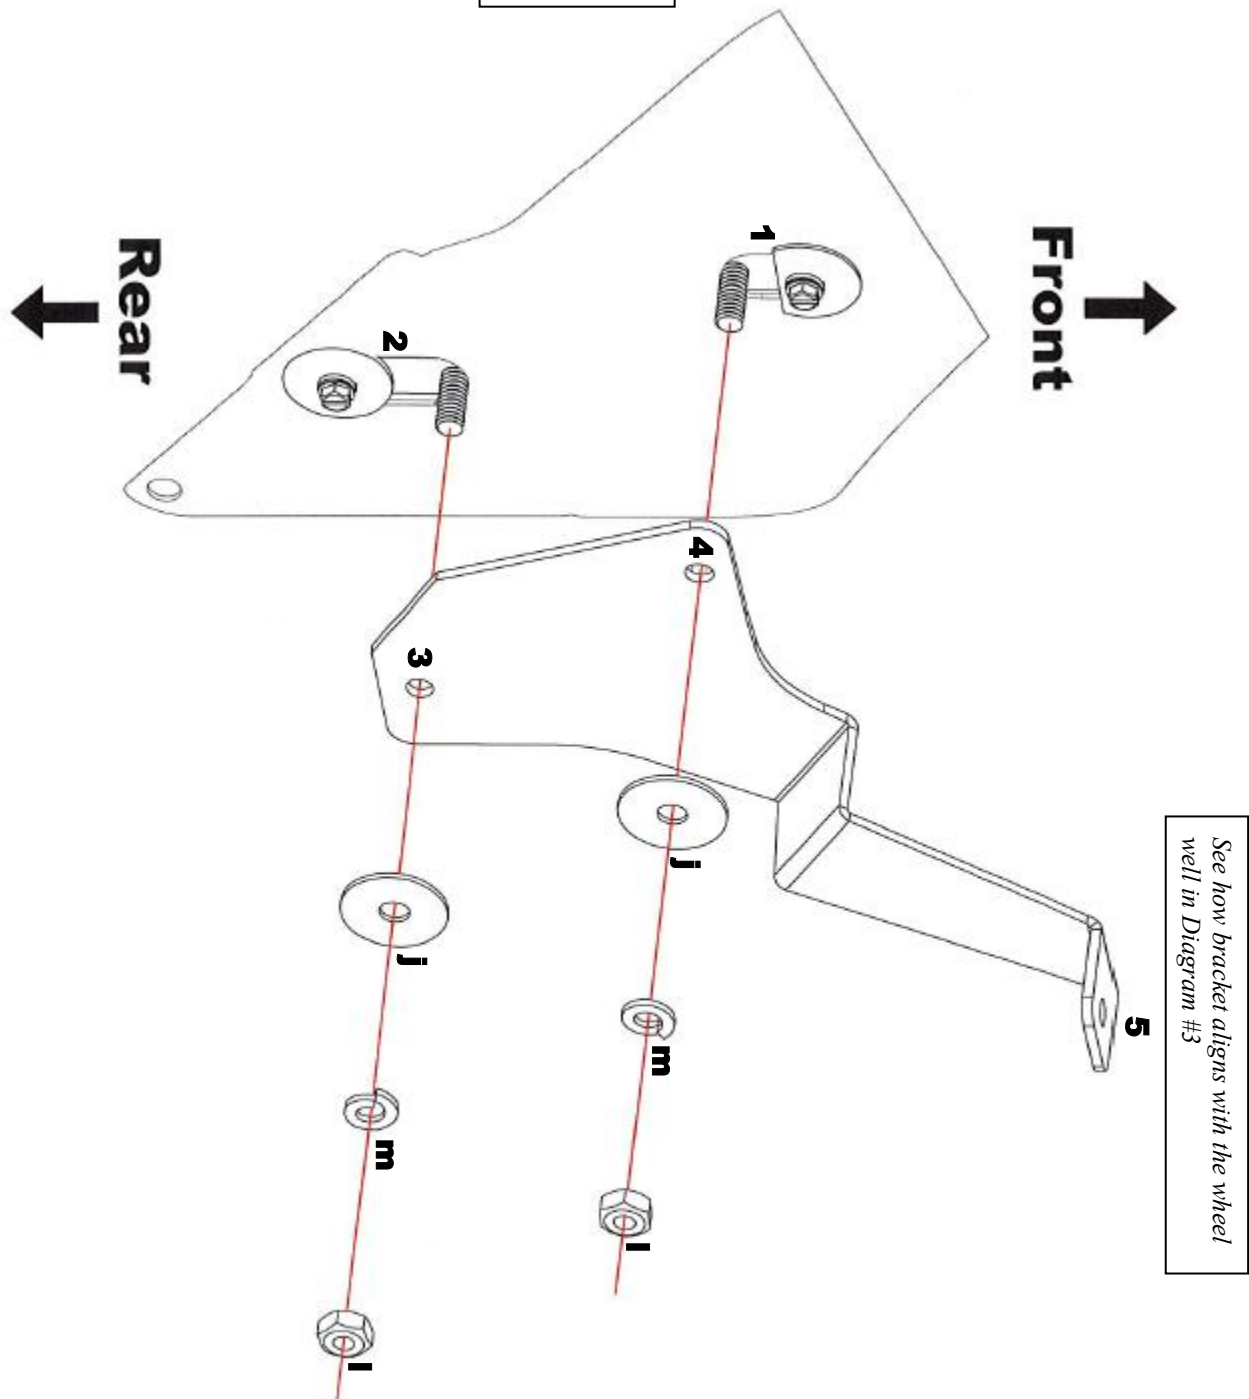

1. Before you install your Mud Flap Set, see the diagram and parts list for all necessary parts.
2. On the underside of the vehicle, install the short clip (q) on the oblong factory hole #1 closest to the front of the vehicle, securing with a flat half washer (i), lock washer (n), and screw (c) and the long clip (r) on the oblong factory hole #2 closest to the back of the vehicle, using a flat washer (h), lock washer (n), and screw (c). (See Diagram 1)

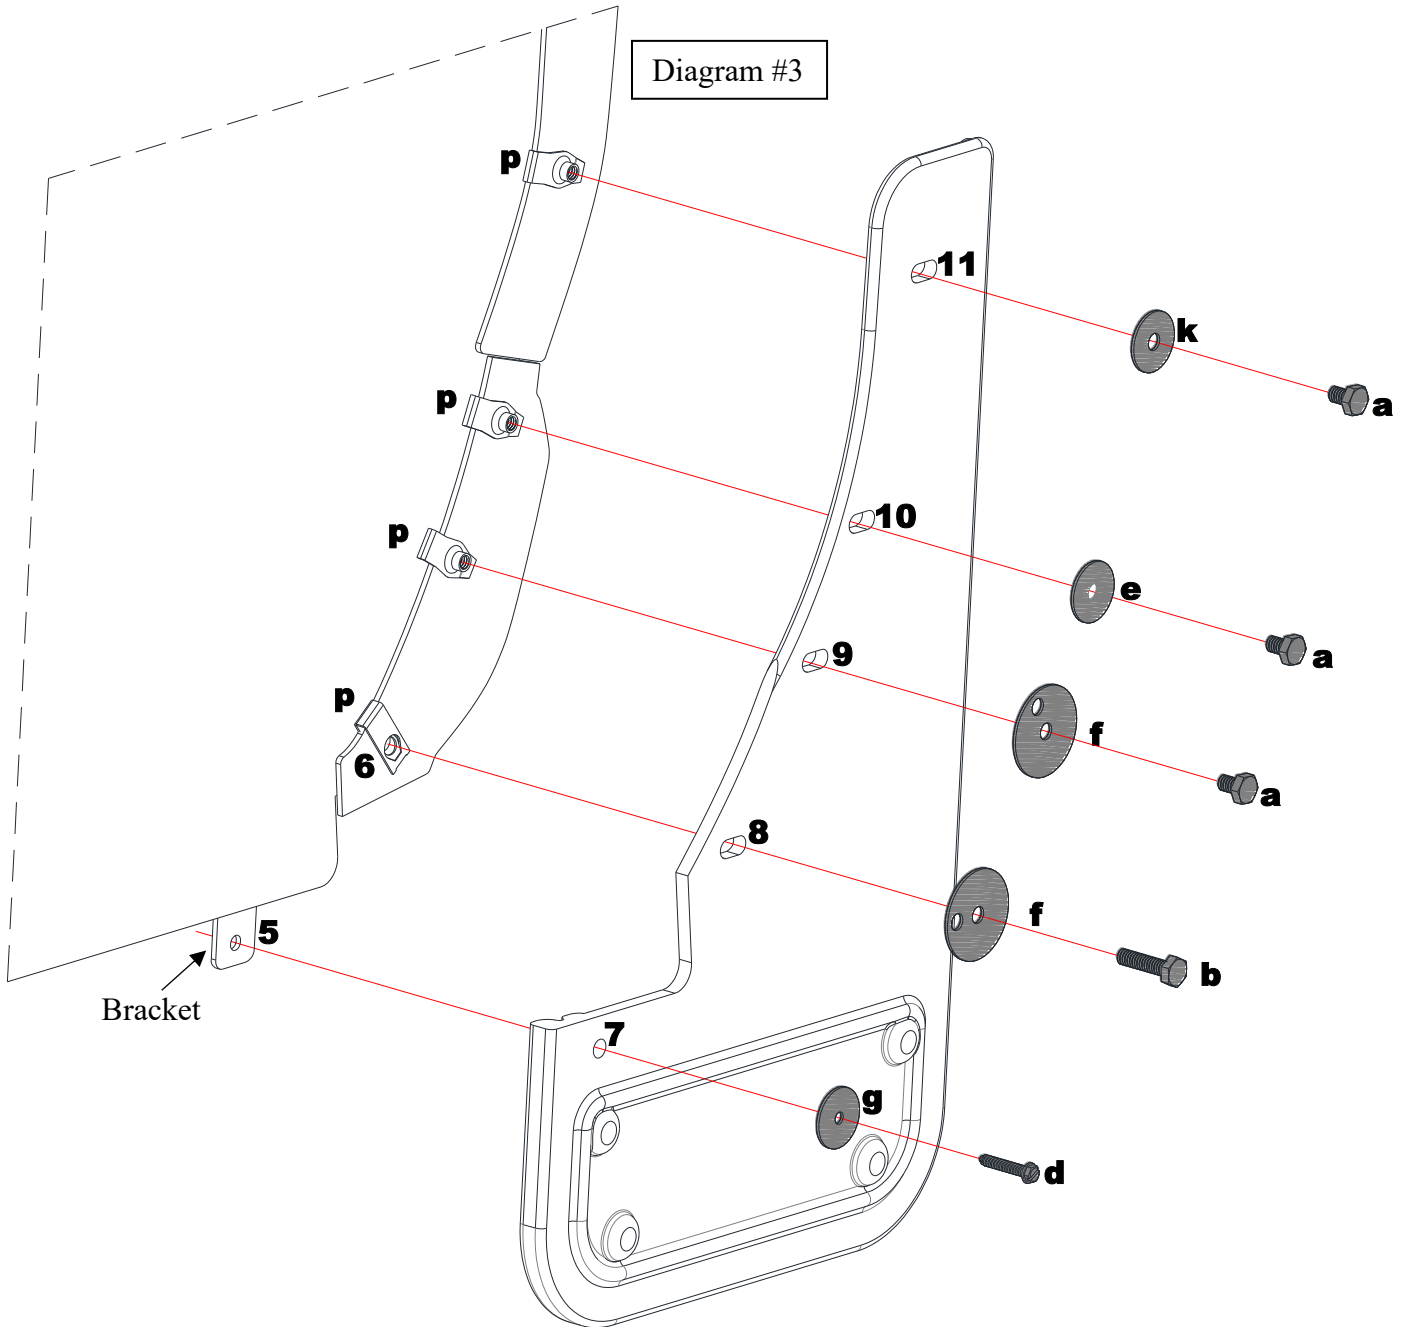

Note: If you would like to see how to install our custom clips, please see our YouTube Channel

3. Install the bracket through holes #3 & #4 to previously installed clips on holes #1 & #2, securing with a flat washer (j), lock washer (m), and hex nut (l). (See Diagram 2)

Diagram #2

4. Remove the factory push pin from hole #6 and discard.
5. Install spring nut (n) on fender lip factory hole #6 with the extruding end facing in.
6. Loosely install mud flap through hole #8 to through spring nut (p) to factory hole #6 using an offset washer (f) and capscrew (b)
7. Line mud flap up with fender lip and mark fender lip with a pen through mud flap holes #9 to #11.
8. Install spring nuts (p) on fender lip on each marked position with the extruding end facing out.
9. Install mud flap hole #9 to spring nut (p) using an offset washer (f) and capscrew (a)
10. Install mud flap hole #10 to spring nut (p) using a flat washer (e) and cap screw (a)
11. Install mud flap hole #11 to spring nut (p) using a flat washer (k) and cap screw (a)
12. Install mud flap hole #7 to bracket hole #5 using a flat washer (g) and screw (d)

Please check out our YouTube channel to see an install video for this application.
